

We Bring Air to Life

FläktWoods

Industrial Solutions

Leaders in Air Movement

Fläkt Woods is the world's leading player in the air movement industry. The Group has operations in over 30 countries and a worldwide distribution network.

Fläkt Woods offer a wide range of air movement solutions for ventilation, of light and heavy industrial processes and infrastructure applications. Our product range is globally recognised for high quality and best value and includes all air movement and control devices, fans and fan coils.

Fläkt Woods lead the market in the design and manufacture air movement solutions for industrial applications. From standardised designs to customised configurations that suit all key requirements, our proven and unrivalled expertise is globally recognised.

Improving Performance in Industry

Effective air management for pollution control, cooling and heat recovery is a vital part of modern industrial processes. Fläkt Woods offer advanced solutions that are constantly evolving to cope with the increasing demands of our industrial customers.

Innovation in Water Treatment

Our new ComVel technology is bringing significant benefits to the waste water treatment industry. Fläkt Woods' innovative products are improving waste water plant operating efficiency and achieving a higher level of cost savings.

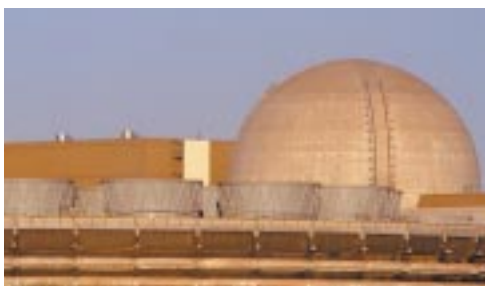

Solutions for Global Applications

Fläkt Woods has unequalled experience of designing and manufacturing air management products for every industrial and infrastructure application. From fans for metro and tunnel projects to robust solutions for mining and petrochemical industries. Our expertise improves air extraction, cooling, cleaning and supply processes throughout industry.

After Market Expertise

Fläkt Woods offer innovation in all areas including refurbishment and service. Our refurbishment service can improve the operating efficiency of any existing installation by replacing components or complete product solutions with improved technology to reduce operating costs, noise or increase performance.
